JOHN DEERE

Winter 2013

7 **TOOLBOX**

Protect your tools from weather and theft with our secure triangle toolbox.

28 **Refrigerator/Warmer**

Make sure to have your favorite hot or cold beverages handy for those long days in the field.

58 **Diesel Exhaust Fluid**

John Deere is ready to support all your Final Tier 4 equipment needs.

Keeping you in the field is our number one priority here at John Deere. That's why we offer John Deere inspections – to catch the things that could slow you down before you head to the field next season.

We thoroughly check for worn parts, and replace the ones that could cause you problems. We can even recommend machine enhancements to make your job easier.

Because as much as we like to see you, we'd rather keep you up and running. That's the John Deere difference. Stop in to make an appointment today.

JOHN DEERE

NO* PAYMENTS INTEREST

Starting November 1, 2013 when you put your John Deere inspection on your Multi-use account from John Deeere Financial OR on your Multi-use account

*Offer ends December 31, 2014. All programs subject to John Deere Financial Multi-Use Account approval and John Deere dealer participation. Minimum purchase of $300 is required. Program options are available for John Deere Financial Multi-Use Agricultural and Commercial accountholders only. After promotional period, interest changes will begin to accrue at the regular John Deere Financial Multi-Use Account rate.

It's not X-Ray vision – but it's the next best thing.

This one-camera digital observation system far exceeds the performance of any other analog system on the market. It features a WiSight signal so strong that it easily transmits through and around objects up to 60 feet away – with no interference. You'll eliminate blind spots so you can operate smoothly and confidently.

Other benefits:
- Delivers a sharp, vivid picture of the vehicle's surroundings to the 5.6-in. color LCD monitor
- Suction cup mount and 12-volt DC power plug for the monitor make this system easily portable among vehicles.
- Wireless for easy and convenient set up

Applications
- Tractors and round balers
- Sprayers
- Trucks and trailers
- Recreational vehicles
- Industrial
- Marine

Boldly go where no radio has gone before.

The weatherproof Jensen 905 Radio brings news, weather, and your MP3 to Gators, skid steers, and open-station tractors. You get a NOAA weather band with weather alert, AM/FM radio, and an input to play an iPod™, MP3 player, or portable CD player.

B Mini 905 Radio

SWJHD905

*Heavy-Duty Mini Speakers (SWJXHD35) sold separately

$183.99

We made the cab quiet. Now give your ears something to listen to.

If your cab radio is dead, dying or just plain dysfunctional, consider an audio upgrade. Tune in to local news, weather and sports, or bring your own audio stimulation via CD or MP3. Satellite news and music are also an option.

C AM/FM/WB Heavy-Duty Radio

SWJHD1130

Pulls in AM/FM and weather-band signals. This new Heavy Duty radio has a full 7 channel NOAA weatherband tuner and tells the time with the new segmented high visibility display. It also comes with Front Aux in capabilities and is equipped with a two wire hook-up which prevents battery drain when vehicle is off.

$157.89

D AM/FM/WB/CD/USB/Bluetooth®/iPhone®/ iPod®/SiriusXM™ Stereo

SWJHD3630BT

In today's modern Heavy Duty market, having a radio built to survive the tough stuff doesn't mean that it has to sacrifice in-demand entertainment options. The SWJHD3630BT features the ability to receive Bluetooth streaming audio and phone calls from a Bluetooth enabled mobile phone, giving you a truly hands free experience. An optional microphone (SWJMICHFP) will be required for hands free calling. This state-of-the-art Heavy Duty stereo also has NOAA 7-channel Weatherband tuner with S.A.M.E technology to focus on a more specific region, giving you more accurate weather updates along with being iPod and SiriusXM radio ready.

$307.52

Make quick turns and have fun.

Turn right or left, lickety-split, simply by adding a deluxe spinner knob to the steering wheel. You get steering control and quick direction changes in one little package.

NUMBER	DESCRIPTION	NOW
TY26583	Green/yellow John Deere logo	$14.29
TY26584	Black/yellow John Deere logo	$14.29

No one has to know you tow.

Just like the current 2- and 3-ball versions, the new Drop Down Pintle can be stowed under the vehicle when it's not in use, and it's fully adjustable to go up 4.5 in. and drop 8.5 in. in 1-in. increments. This high-quality hitch fits in a standard 2-in. receiver and when used as a pintle is rated at 16,000 GTW.

When the pintle plate is pined open the standard ball mount is a Class IV 10,000 pound rated hitch. It's manufactured from solid steel for a lifetime of reliable towing. It's also black powder coated for a durable and long-lasting finish.

F John Deere Drop Down Pintle Tow and Stow Receiver Hitch

Don't see the part you are looking for? See us for the appropriate part for your snow blower.

John Deere Fuel-Protect Gasoline Stabilizer

Blended fuel attracts water from the air, which causes corrosion to fuel tanks, fuel lines, carburetors and injectors. John Deere Fuel-Protect contains double the corrosion preventer to help fight these damaging effects. Pumped gasoline starts to degrade immediately causing varnish deposits to build in engines. This results in starting problems, poor performance and reduced engine life. Adding John Deere Fuel-Protect keeps fuel fresh for 12 months, more than doubling the storage life of fresh gasoline. John Deere Fuel-Protect also eliminates the need to drain fuel prior to storage.

NUMBER	DESCRIPTION	NOW
TY27534	Fuel-Protect for gasoline, 8 oz.	$ 4.49
TY27535	Fuel-Protect for gasoline, 32 oz.	$12.99

Heavy-Duty Brush Guard

Keep your tractor free from scratches and scrapes with our front-end brush guard. With its welded construction made of large-diameter tubing and thick steel plates, it provides superior protection for the front grille, lights and hood.

Closest thing to sunlight.

Illuminate your path with the newest LED work lights from John Deere. Thanks to the super-bright lighting, you can work around the clock with better visibility. These LED work lights add more radiance to brighten your night, while at the same time provide less strain to your eyes. As an added feature, energy consumption on the LED lamp is as much as 75 percent less than a halogen-type light, resulting in less drain on your alternator and battery. LEDs offer more than 44 times the expected lifespan of sealed-beam halogens, and with our expanding selection of LED products, it's easy to get more bang for your buck.

Ask us about installing LED work lights on your tractor today.

LED Lights

Need extra light when working at night? Increase available light while conserving power and reducing the load on your alternator with our new Light Emitting Diode (LED) work lamps. These lights, which are available in both flood and trapezoid beam patterns, offer 44 times the lifespan of sealed-beam halogen lights, and reduce energy consumption by up to 75 percent. The John Deere LED lumen rating is based on "effective" lumens. Some competitors' claims use the "raw" lumen output, which can inflate the perceived output quality.

Ask us about installing LED work lights on your tractor today.

Don't wait for someone to pass a noise ordinance. Choose a painted stack, or go for the chrome look. Chrome rain caps are also available.

NUMBER	APPLICATION	NOW
PM89050C	3 x 36 in.	$ 65.23
PM89051C	3 x 48 in.	$116.51
PM89056C	4 x 36 in.	$131.94
PM89057C	4 x 48 in.	$124.36

Multi-Power Outlet Strip

Six electrical outlets give either permanent or ignition key-controlled power for items, such as implement monitors and implement supplies. Twelve-volt and up to 30-amp of total current can be taken from these outlets.

NUMBER	DESCRIPTION	NOW
AL158785	Multi-power outlet strip. Fits 6020 and 7020 Series Cab Tractors.	$68.99
RE68495	Multi-power outlet strip. Fits John Deere tractors, combines, sprayers and other self-propelled equipment.	$53.49
Additional components for Multi-Power Outlet Strip:		
RE67015	Three-way convenience outlet adapter	$29.59
RE67014	Cigarette lighter adapter	$43.69
RE67013	Standard connector with 3-ft. cable	$12.29

Advent 12V Refrigerator/Warmer

Ideal for long days in the field, this 7.1-liter refrigerator/warmer holds up to nine 12-oz. cans of your favorite cold beverages. If you'd rather warm your belly on a cold day in the cab, you can convert this unit to a food and beverage warmer in under an hour.

- Cools down to 40°F in 60 minutes
- Warms up to 140°F in 60 minutes
- Superior foam insulation
- Holds 7.5 quarts or up to nine 12-oz. cans or four 20-oz. bottles
- 12-ft. power cord
- Weighs 6.5 lb.
- Carrying strap handle for easy portability

Applications include tractors, combines, trucks or inside any other machine with a cab.

NUMBER	DESCRIPTION	NOW
SWREF12V	Refrigerator/Warmer, 12V	$64.39

Semi-Transparent Rear Window Decal

Our charming rear window decal reduces glare from direct sunlight while providing full rearward visibility.

NUMBER	APPLICATION	NOW
R224089	Fits 6020–6030 and 7020–7030 Series and 8020–8030 and 9020–9030 Series Wheel and Track Tractors	$46.01

We protect you for the long haul.
PowerGard™ extended warranty

At John Deere, our products are built to last – and so is our support. That's why we offer PowerGard Protection extended warranty for extra machine protection after the basic warranty.

You'll be covered even longer for top-of-the-line John Deere parts and services when you need them, without unexpected costs. You'll add value to your machine, and confidence to your work.

Because you deserve to be protected – even after the warranty. That's the John Deere difference.

Floor Mats

Dirt and mud belong in the field, not in your cab. But when it sneaks in, you can clean it out in no time if you have John Deere floor mats.

NUMBER	APPLICATION	NOW
MCTJHD6000	Fits 6000, 6010, 6020, 6030, 7430 and 7530 Series Tractors	$97.81

MCTJHD4130	Fits 8030 Series Tractors	$97.81
MCTJHD5072	7R/8R Series Tractors	$66.66

Locking Fuel Cap

Stop thieves with locking caps.
Reduce the threat of stolen fuel with these lockable fuel filler caps. They act like ordinary fuel caps when unlocked. However, when locked, the top cap turns independently from the internal threads. This makes the cap impossible to take off without a key. A proven way to protect against theft and vandalism. Fits current and previous tractor models. Keys are included.

RE558187

NUMBER	APPLICATION	NOW
AL113087	Fits 110 TLB, 3020, 4020, 5010, 5020 and 5025 Series Tractors	$40.19

RE558187 does not require a seperate padlock. Keyed lock built into cap.

Maximize
your tractor's potential

Add More with John Deere attachments

With thousands of attachments to choose from, it's never been easier to add more productivity, more convenience and more overall value to your operation. From sub-compact utility to four-wheel-drive tractors, John Deere attachments are compatible with multiple models, fitting every need and enhancing your tractor for maximum performance.

Add More potential to what you can do with John Deere attachments.

Add more convenience with our Mounting Bracket Kit with Ram Mounts. With the ability to mount and adjust key controls and displays, you can customize your cab to fit the way you work! ***Available for most cab tractors.***

Accessory Mounting Bracket Kit

The new mounting bracket kit allows the operator to mount, adjust and position key controls and displays within the cab for maximum accessibility without compromising visibility. The new John Deere design can be used in multiple configurations and tailored to the specific machine and task.

NUMBER	DESCRIPTION	APPLICATION	NOW
RE343680	Accessory Mounting Bracket Kit**	Works with Utility, Row Crop, and Four Wheel Drive cab tractors, or wherever additional monitors are needed	$54.99

**RE343680 contains: R343682 (1), R343683 (2), RE343685 (2), and necessary hardware.

Cell Phone Bracket Kit

The RAM® X-Grip™ has a clever four-leg design that features great holding power without hiding your phone behind foam pads and plastic. The perfect complement to modern John Deere cabs, the RAM X-Grip™ is compatible and interchangeable with a wide range of popular RAM Mounting and John Deere products.

Key benefits:

- Patented X-Grip holder fits most cell phones on the market today and similar devices to an iPod®, iPhone®, BlackBerry® and others.
- Mounts to cab posts and monitor brackets
- Ball joints allow for variable positioning
- Holds firm even in rugged terrain or uneven applications

Made in the USA

NUMBER	DESCRIPTION	APPLICATION	NOW
BRE10015	Cell phone mount bracket kit (includes RE558821, RE558819, and RE558822)	Sized to attach directly to cabs equipped with 10 mm threaded bosses. Can be used with RE343680, RE162262, RE245374, and RE317435. Works with Utility, Row Crop, and Four Wheel Drive cab tractors, or wherever additional monitors are needed.	$58.30

For proper machine operation it is critical that accessory devices and tools be located and mounted where they are accessible, but do not interfere with visibility and controls. The new RAM® mount kits have been specially developed to meet this need in John Deere tractors.

RAM Tablet Mount Kit

The high strength composite design allows for the user to secure their tablet without restricting any access to the existing audio jacks, USB, power, and other ports on the tablet.

Compatibility:

- Apple® iPad, iPad 2, iPad 3 with/without a light duty case
- HP Touchpad with/without a light duty case
- Most 10" Screen Tablet Devices

Key Benefits:

- Mounts to cab posts and monitor brackets
- Ball joints allow for variable positioning

Made in the USA

NUMBER	APPLICATION	NOW
BRE10034	Can be used with RE343680, RE162262, RE245374, and RE317435. Works with Utility, Row Crop, and Four Wheel Drive cab tractors, or wherever additional monitors are needed.	$74.80

For proper machine operation it is critical that accessory devices and tools be located and mounted where they are accessible, but do not interfere with visibility and controls. The new RAM® mount kits have been specially developed to meet this need in John Deere tractors.

Step Kits

It's easy to get on and off your "everyday" John Deere tractor with this three-position, adjustable step kit. Bolts securely to the tractor frame and battery box in just 30 minutes. Features wide steps with serrated-tread design. Compatible with most loaders, saddle tanks and other tractor-mounted equipment.

NUMBER	APPLICATION	NOW
RE61690	Fits 30-55 Series Row-Crop Tractors	$291.00
RE62856	Fits 3010, 3020, 4010 and 4020 Series Row-Crop Tractors	$291.00
RE163104	Third step for above kits	$ 60.19

Fuel Step Kit

Fuel steps make refueling easier. Kit includes two slip-resistant steps for convenient access.

NUMBER	DESCRIPTION	APPLICATION	NOW
RE186238	Fuel side-step kit	Fits 30-60 Series 2WD Row-Crop Tractors	$162.30
R78991	Hood handle*	Fits 30–60 Series 2WD Row-Crop Tractors, 8570-8970 Series Tractors	$ 27.30

*Must be ordered separately.

Convenience Step

This step provides easier access when cleaning front cab windows and Starfire™ receivers.

NUMBER	APPLICATION	NOW
RE284180	Fits 7720-7920, 7630-7930, 8R and all 8000 Series Tractors	$238.51

Right-Hand Step and Handrail

8000 Series

With a right-hand step and handrail, it's easier to clean your tractor's windows and do other routine maintenance.

NUMBER	APPLICATION	NOW
RE255767	Fits 8020 and 8030 Series Tractors	$427.90
RE267353	Compatible with model year 2010 8R Series Wheel Tractors 8225R, 8245R, 8270R, 8295R, 8320R, and 8345R only	$393.80

Telescopic Mirrors

Telescopic rearview mirrors provide operators with a wide rear view of the field or road. These mirrors are especially useful when towing wagons or large implements.

NUMBER	DESCRIPTION	APPLICATION	NOW
AL80126	Left-Handed, Manual Adjustable	Fits 5000, 6000, 7000 Series Tractors	$168.30
AL80127	Right-Handed, Manual Adjustable	Fits 5000, 6000, 7000 Series Tractors	$168.30

Quick-Hitch

Made from high-strength tubular steel. Box-welded to provide long life and handle the increased lift capacity of today's high-performance tractors.

NUMBER	DESCRIPTION	NOW
PMQH100	Black Quick-Hitch. Fits Category I implements.	$312.78
PMQH101	Green Quick-Hitch. Fits Category I implements.	$312.78
TY16042	Green Quick-Hitch. Fits Category II implements.	$580.37
TY16043	Green Quick-Hitch. Fits Category III implements.	$731.62
TY16044	Green Quick-Hitch. Fits Category III-N (narrow) implements.	$720.21

Backup Alarm Kit

Great for agencies and owners that require or desire an audible alarm when the tractor is in a reverse gear. The backup alarm is rear-mounted and provides optimum clearance and visibility to your three-point hitch.

NUMBER	APPLICATION	NOW
LVB25728	Fits 5E, 5E Limited, 5025 and 5025 Narrow Series Tractors	$158.40
LVB25607	3000 TWENTY, 4000 TWENTY (Requires eHydro Transmission)	$126.50

Rear Work Light

Increase illumination from the back of your tractor. Adding rear-mounted Roll Over Protection Structure (ROPS) lights projects 55 watts of light from open operator-station tractors.

NUMBER	APPLICATION	NOW
LVB25547	Fits 1023E, 1026R, 2020, 3020, 4020, 4105, 5D and 5E Series Tractors	$ 62.70
LVB24853	3000 TWENTY and 4000 TWENTY Cab Tractors only	$150.70

Inspection ▪ Attachments ▪ Service

Schedule your off-season inspection today and get peace of mind next season. A certified technician will thoroughly check for worn parts that could cost you money, yield *and* time next harvest.

We can also recommend performance parts and attachments to make your job easier and add more to your bottom line. The attachments featured in this catalog are just a sampling of the enhancements available. There is no one-size-fits-all solution, so let us help you get the most out of your machine.

Get a smart head start on a bountiful harvest. Call or stop by to schedule your inspection today.

QuickLub® Automatic Lubrication System

Save time and labor while increasing the wear life of vital parts. The QuickLub system automatically distributes grease to moving parts on your combine at set intervals within a closed system, eliminating the need for manual lubrication.

NUMBER	MODEL
277949	S Series Combines
275615	70 Series STS Combines
272704	60 Series STS Combines
272700	50 Series STS Combines
272705	50 and 60 Series Walker Combines

Camera Observation System

Get a bird's-eye view of your important combine functions on-the-go. Ideal for improved visibility of your grain tank and sample, as well as when unloading into tall grain carts or trucks. Complete with two, durable, waterproof cameras and an LCD flat-screen monitor. Plus, get custom mounting hardware and instructions for a factory-fit look. See us for S Series camera options.

NUMBER	DESCRIPTION
BH84475	50, 60 and 70 Series Combines

See us for pricing.

PowerCast™ Tailboard

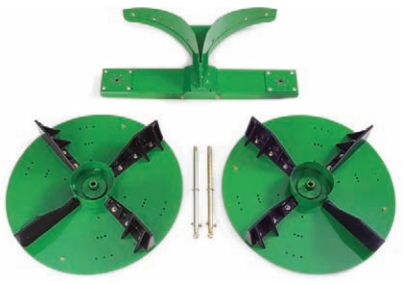
Get better residue distribution by adjusting spread width from 35 feet up to 50 feet – all from the comfort of your cab. Perfect when upgrading to a wider platform width. See us for 50, 60 and 70 Series Combine compatibility.

NUMBER	DESCRIPTION
BXE10174	S660, S670, S680 and S690 Combines

Extra-Wide Straw Spreader

Add these parts to a standard straw spreader (twin-disk widespread with integrated chaff spreader) to increase your spread width up to 40 feet.

NUMBER	DESCRIPTION
BH84523	9050 Series STS; 9660, 9760, 9860, 9670, 9770 and 9870 STS; and S660, S670, S680 and S690 Combines



Concave Insert Bars

Add more verstility to round-bar/multi-crop concaves. Concave inserts provide the additional threshing action required for harvesting small grain.

NUMBER	DESCRIPTION

BH84294	S550 and 9570 STS Comibnes

AutoTrac™ RowSense™

Increase productivity and reduce operator fatigue when harvesting corn. With the help of GPS and mechanical row sensors, you'll get a precise and efficient system allowing hands-free row guidance. Visit www.StellarSupport.com for compatibility information.

See us for pricing.

Store bales securely under this roof

Now you can store hay bales outside year-round without sacrificing hay quality.

With revolutionary B-Wrap from John Deere, moisture stays out while vapor escapes. Keeping hay dry. Reducing storage loss. Protecting the nutrient value. And freeing up your storage options.

Traditionally, bales stored outside can lose as much as 5 to 20 percent dry matter. B-Wrap's innovative, patented technology cuts storage loss down to almost nothing. It's unique material:

- Sheds water, rain and snow.
- Eliminates water vapor. Unique, microscopic surface pores allow water vapor to escape, preventing condensation – which can produce mold and quickly ruin the bale.
- Minimizes ground moisture damage caused when water wicks up into the bale.

B-Wrap gets a great rap

Here's what one producer has to say about using B-Wrap:

"On bales held over winter...we'll often see 6 inches of spoilage on the bottom of the bale. Our B-Wrap bales stored in the same row have none. When we unroll a B-Wrap bale for our cows the hay looks green right off the bat."

John Woodcock, beef farmer, Macon, Missouri

A smart change made easy

The required standard kit: **(Part #BE32467)**

- Fits on John Deere 7, 8, or 9 Series (non-premium) balers.
- Must be ordered to install on the baler for B-Wrap to work.

It's a new hay day for producers. B-Wrap makes the great outdoors your high quality storage facility – helping you protect *all* of your hay so you can capitalize on today's rising prices. B-Smart and talk to your John Deere dealer today.

How B-Wrap Protects Bales

B-Wrap protects your hay, straw and crop residue almost like it was stored indoors.

- The secret is a patented material that features Tama SCM™ Technology. It sheds water, stopping rain, snow and ground moisture from ruining hay quality.
- Tama SCM Technology has microscopic pores that let water vapor inside the bale escape.

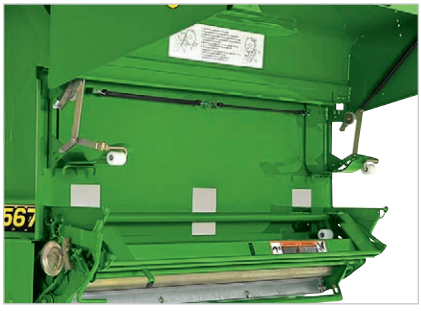
Hi-Flotation Tire Conversion

The larger tires absorb shock loads and improve the ride in rough or pivot track ground. They also decrease compaction in soft ground, and allow increased ground speed for better productivity.

NUMBER	DESCRIPTION	APPLICATION
BE31125	21.5L-16.1 in. Hi-Flotation Tire Conversion	8 and 9 Series Balers with MegaWide Pickups

CoverEdge™ Surface Wrap Bundle

CoverEdge surface wrap stretches over the edges of the bale to cover 15 percent more surface area. This added feature offers improved weatherability by allowing water to shed off the ends of the bales. This increases the bale's marketability because less spoilage means better-looking bales.



NUMBER	DESCRIPTION	APPLICATION
BE32449	CoverEdge Surface Wrap Bundle	567, 568, 569 Round Balers
BE32450	CoverEdge Surface Wrap Bundle	467, 468, 469 Round Balers
BE32451	CoverEdge Surface Wrap Bundle	557, 558, 559 Round Balers
BE32452	CoverEdge Surface Wrap Bundle	457, 458, 459 Round Balers

*7 Series must have factory equipped BaleTrak Pro or BaleTrak Plus monitors.

Variable Core Valve

The variable core valve reduces hydraulic pressure for easier bale starts in difficult conditions:

- Reduces core density
- Soft core diameter is adjustable within 102mm (4 in.) of the bale's outer diameter
- Controlled and adjusted from the monitor

NUMBER	DESCRIPTION	APPLICATION
BE23826	Variable Core Valve	456, 556, 457, 557, 458, 558 Round Balers
BE23827	Variable Core Valve	466, 566, 467, 567, 468, 568, 469, 569 Round Balers

Pickup Attachments

Increase your productivity with either a set of gathering wheels or gauge wheels for your pickup. Gathering wheels are perfect for picking up extra-wide or wind-scattered windrows to improve your haymaking productivity. Wheels are side-mounted and spring-loaded to handle rough terrain. Gauge wheels provide smooth ground gauging over uneven terrain while protecting your pickup. Gauge wheels are adjustable to meet pickup-tooth-to-stubble-height requirements.

NUMBER	DESCRIPTION	APPLICATION
BE23893	Gathering Wheels	6, 7, 8, and 9 Series Round Balers with Regular or MegaTooth Pickup
BE31132	Pickup Gauge Wheel	6, 7, 8, and 9 Series Round Balers with Regular Pickup
BE31133	Pickup Gauge Wheel Arm Kit (Includes LH and RH)	6, 7, 8, and 9 Series Round Balers with Regular Pickup

See us for pricing.

DiamondTough™ Baler Belts

Stronger and longer lasting

Handle heavy shock loads and maintain consistent belt length with DiamondTough baler belts. They're more puncture- and tear-resistant than other belts because they're made from a patented, triple-warp weaving process of nylon, polyester, and monofilament materials. The special weave also increases the strength and reduces stretch. The result? Improved reliability and belt life.

Get the belt that won't bail on you no matter how tough the going gets. Ask your dealer for the correct fit for your round baler.

Windrow Hay Moisture Tester

Now test hay **before you even start baling** with the portable Windrow Hay Moisture Tester from John Deere. You no longer have to make a bale and use a probe-style tester to determine if your hay is ready. Instead, just add loose hay to a five U.S.-gallon bucket, press the tester into the hay and get a quick, accurate reading. See results in 30 to 60 seconds. Measuring range: 13- to 70-percent moisture. Accuracy range: +/- 2 to 4 percent.

NUMBER	DESCRIPTION	NOW
SW07140	Windrow Hay Moisture Tester	$273.68

Hay Testers

John Deere Field Connect Leaf Wetness Sensor
BPF10612

The leaf wetness sensor imitates the characteristics of a leaf to detect small amounts of water or ice. This enables producers to identify when moisture is likely to be present on the leaves of a crop in a specific field. Prolonged moisture on leaf surfaces can lead to higher risk of disease.

$396.00

John Deere Field Connect Temperature Probe
BPF10614

Monitor soil, air and water temperatures through the use of the temperature probe attachment. Temperatures of the soil and air can make a difference in the effectiveness of chemical applications and provide key indications of frost events. This attachment allows for site-specific temperature data. It is common practice to use multiple temperature probes at varying heights to monitor inversion layers for freeze detection and warnings.

$253.00

John Deere Field Connect Temperature Probe Shield
BPF10613

The Temperature Probe Shield protects the temperature probe from direct sunlight and provides a more accurate temperature reading.

$253.00

John Deere Field Connect Rain Gauge
BPF10618

With the rain gauge attachment, you can get a field-specific picture of the effects precipitation events are having on their soil moisture. In overhead irrigation installations, the rain gauge can be used to evaluate how much of the water is being lost to evaporation and other environmental factors.

$825.00

John Deere Field Connect Pyranometer
BPF10617

The pyranometer attachment provides solar radiation information to the producer. This information is a key component in evapotranspiration calculations, which can help you make irrigation scheduling decisions. Solar radiation may also be used to understand periods of cloudy conditions, which impact plant growth and development. This information is also useful in the timing of fertilizer application in certain crops.

$786.50

John Deere Field Connect 10 W Solar Panel
BPF10659

The 10-watt solar panel can be used as an alternative to the standard 5-watt panel in cases where recharging conditions are more difficult. If installations are in high latitudes or have shorter periods of sunlight, the 10-watt panel may be used for improved recharging.

$187.00

John Deere Field Connect Weather Station
BPF10628

The weather station collects in-field air temperature, relative humidity, wind speed and direction. All this information is sent to the web and can be accessed from your desktop or mobile device, so you can calculate evapotranspiration (ET), a critical measurement in irrigation planning and scheduling. You can also identify the need for freeze protection, or determine the best time to spray your crops.

Productivity Next Year Starts **Now**

with a sprayer inspection

Do the one thing now that will make a huge difference in your productivity next year – have your sprayer professionally inspected at your John Deere dealer. Only John Deere dealers can offer you all of the following:

- Up to a 200-point inspection. Our certified technicians will thoroughly check every system, including your solution, foam marker, hydraulic and hydrostatic systems.
- Dealer know-how. Rely on your dealer's expertise to help you make the right decisions about parts, attachments, precision farming technology and service. That's the John Deere difference.
- Ask your dealer about No-Payment/No-Interest financing available from November – April when you use your multi-use account.*

A thorough inspection now means more uptime later! Call your local dealer to schedule an inspection today.

* Subject to approved credit on John Deere Financial multi-use account, a service of John Deere Financial/fsb. For agricultural/commercial use only. After the promotional period, interest charges will begin to accrue at the regular John Deere Financial multi-use account rate. Available at participating merchants.

Winterizer Fluid

A John Deere exclusive...the only cold-weather protection fluid that is specifically formulated to protect your sprayer's entire wet system. Eliminates risk of frozen and broken pipes, pumps, valves, and the frequent replacement of pumps due to improper winterization.

NUMBER	DESCRIPTION
N305634	Sprayer winterizer-2½ gal.
TY26555	Sprayer winterizer-55 gal.

See us for pricing.

Express™ Nozzle Body End Caps

Get faster nozzle turn-off and turn-on. Express Nozzle Body End Caps allow trapped air to escape, reducing nozzle turn-off/turn-on times by 85 percent.

Improve Plant Health with spot-on coverage from every angle

Pre- and Post-Emerge Fertilizer

Wide Angle, Drift Reducing

High-Flow

- *Wide 140-degree, extremely coarse, fan spray pattern maximizes uniformity and consistency on wide or narrow spacing for pre-plant.*

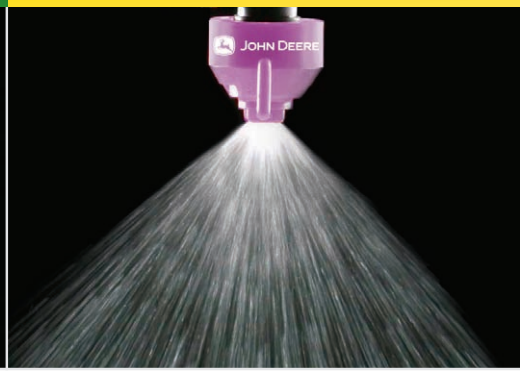
Six Stream

Straight Stream Ceramic

- *Six streams evenly distribute fertilizer*
- *Reduced atomization limits leaf burn/scorching*

Pre- and Post-Emerge Herbicide

Drift Reducing, Dual Air Eduction



Ultra Low-drift

- *Patented venturi technology creates air-filled droplets in a unique, thick pattern to greatly reduce drift.*

Post-Emerge Plant Health

Twin Enhanced Coverage, Air Eduction

Guardian™ Air Twin

- *Ideal for high-coverage application of post-emerge plant health protectants*

Enhanced Coverage

Guardian™

- *Good for application of post-emerge plant health protectants*

Enhanced Coverage, Air Eduction

Low-drift Air

- *Ideal for on-target application of post-emerge plant health protectants*

Targeted spraying yields greater Plant Health

Herbicide resistance is a big issue these days. And while we can't help you make decisions about chemicals or farm practices, we can offer you nozzles engineered for pinpoint accuracy thanks to Technozzlegy. So when you spray, you reach the exact part of the plant you're aiming for — minimizing weeds, insects and fungus while maximizing nutrients.

Let us help you take the guesswork out of nozzle selection. Just log on to our site, input a few specifics about your particular application and the best nozzle for the job displays. Make your purchase with just a few more clicks.

Try our online selection tool

Boom Cleanout Kit

Simply mount this kit on the ends of each boom section, then open to flush the system and avoid any clogging. Use with 1-inch plumbing.

NUMBER	APPLICATION
BN202517	All John Deere Sprayers

See us for pricing.

BoomTrac Pro™ Height Control System

A proven way to dramatically reduce spray drift and skips. This system increases application accuracy and efficiency by maintaining a more consistent boom height above the crop.

See us for specific applications for your John Deere sprayer.

Load Command™ System

Load 1,200 U.S. gal in as little as three minutes. With this fully integrated solution, designed specifically for the 4930 and 4940 Self-Propelled Sprayers, you can get back to the field faster and spray more acres per day.

NUMBER	DESCRIPTION	MODEL
BN909651	Tender arm and vehicle-mounting brackets	4930 and 4940
BN202580	Tender arm only	4930 and 4940
BN400414	Field-install machines equipped with eductor	4940
BN909750	Field-install machines without eductor	4940
BN202625	Field-install machines equipped with eductor	4930
BN909666	Field-install machines equipped without eductor	4930

See us for pricing.

Direct Injection

Operators can now accurately inject chemicals into the carrier flow without having to mix them in the solution tank. This elminates the need to rinse the solution tank prior to switching chemicals – resulting in easier changeover between crops and chemicals, quicker load times and fewer, wasted chemical inputs. Available only on John Deere 4940 Self-Propelled Sprayers.

NUMBER	DESCRIPTION
BN909782	One high-volume pump, one set of tanks (100-gal. system)
BN909780	One high-volume pump, two sets of tanks (200-gal. system)
BN909781	Two high-volume pumps, two sets of tanks (200-gal. system)
BN400630	One low-volume pump, small tank (35-gal. system)

See us for pricing.

More than 150 reasons to get your planter inspected now.

Did you know more than 150 variables can affect your planter performance? The last thing you need at planting time is downtime. So before you put it away, get it inspected today.

With our comprehensive inspection program, we'll get your planter in top operating condition. From drawbar to closing wheel, we examine every critical area including drive parts, meters, Tru-Vee™ openers, hydraulic cylinders, and gauge wheels.

That means you'll get:

- *Proper* residue and soil-condition management
- *Accurate* seed metering
- *Precise* placement of seed and soil

There's no better time to schedule a complete planter inspection at your John Deere dealership. Nobody supports you like we do. That's the John Deere difference. Stop by today.

Seedstar™ XP Upgrade Kit

Looking to add more technology to your 1770NT and 1790 planters, model years 2008 through 2010? This upgrade kit lets you monitor your overall planter performance at the row-unit level.

- Seed-singulation monitoring
- Seed-spacing monitoring
- Row-unit downforce monitoring
- Row-unit downforce margin monitoring and adjustments
- Row-unit ride-quality monitoring

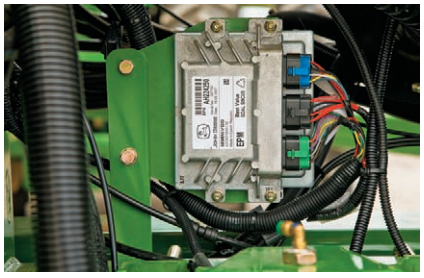
See us for a quote today!

Row Cleaners

John Deere offers row cleaners for any soil condition – heavy residue, tightly compacted soil or light, sandy soil.

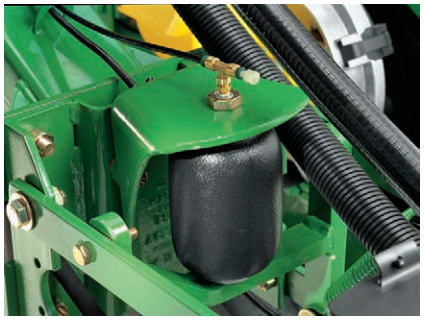
- Screw-adjust
- Floating

RowCommand™ (retrofit)



Get improved planting accuracy and productivity you never thought possible from odd-shaped fields, headlands, point rows, and waterways with this highly effective technology. Automatically turn individual row units on and off from your cab, reducing seed waste and maximizing seed placement. For planters equipped with Pro-Shaft™ Drive.

Active Pneumatic Downforce



John Deere makes it much easier to achieve the degree of planting accuracy you want. A hydraulically-driven compressor works with your Seedstar™ XP system to automate downforce control. This frees you from constantly making manual downforce adjustments as conditions change.

FREE and easy

SPRING for a new SET of Perma-Loc™ sweeps...

...and we'll spring for the quick-change adapters

Hurry, offer expires December 31, 2013.

Get a great deal on the easiest and most effective sweep attachment system ever. Purchase a full set of our **NEW High Productivity (HP) sweeps – designed to perform at higher speeds – or our Tru-Width (TW)™ sweeps, and you'll get the heavy-duty, quick-change adaptors and locking springs to attach them – absolutely FREE!***

High Productivity

Tru-Width

Already a Perma-Loc owner?

Get 10% off a new set* of High Productivity or Tru-Width sweeps

Current Perma-Loc sweep owners can save ten percent on their purchase of a new set of High Productivity or Tru-Width sweeps anytime now through the end of the year.

Get your **FREE and EASY** deal on a Perma-Loc quick-change system or a 10% discount off the purchase of a set of Perma-Loc sweeps. See your John Deere dealer for details.

*Disclaimer: Free adapter and spring offer good on a purchase of a full set of John Deere High Productivity (HP) or Tru-Width (TW) Perma-Loc sweeps made before taxes and shipping/delivery charges. Or get ten percent off a one-time purchase of a set of HP or TW Perma-Loc sweeps – good before taxes and shipping/delivery charges. See your local John Deere dealer for details. Offers good November 1st through December 31st, 2013 only. Offers may be discontinued or modified without notice at any time. Offers cannot be combined with other offers.

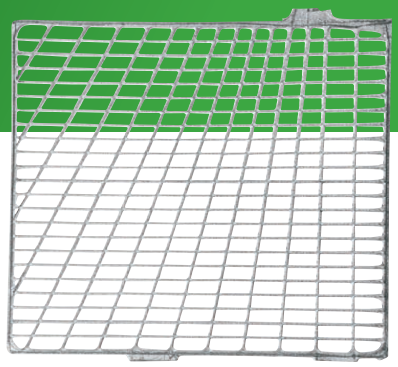
Note to dealer: Reference parts bulletin 050778 for promotion details and redemption information.

Extreme Temperatures Can't Get StrongBox™ Down

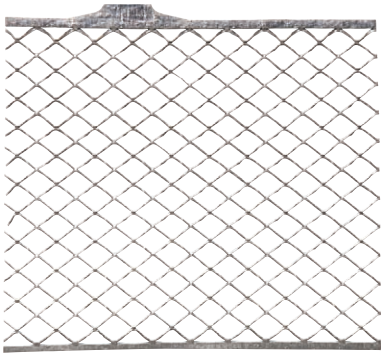
High summer temperatures can cause damage to batteries – damages that might not be evident until temperatures get cold. StrongBox batteries are designed to prevent temperature-related damage, and start easily in extremely cold temperatures.

StrongBox batteries are constructed with a robust internal chemistry makeup and intercell connectors that are 12 percent larger than competitors' for extra power when you need it most. Their super radial grid design with inboard lugs provide higher cranking amps and faster charges. Plus, extra-heavy duty plates give extra reserve power, especially in extreme cold conditions.

Replace your battery with the only battery designed to maximize the performance of your John Deere equipment – StrongBox.



Strongbox heavy duty cast grid



Standard duty expanded metal battery plate

StrongBox Batteries

StrongBox batteries deliver superior performance in all makes of heavy- and light-duty equipment used on farms, ranches and construction sites. They're also compatible with most lawn and garden equipment, SUVs and ATVs. Other batteries may look like StrongBox, but there's no mistaking Strongbox batteries' exceptional performance!

Get the parts you need, around the clock

At John Deere, we're about making your life easier. That's why we offer Parts OnSite. You can stock parts right on your farm, so you can get what you need right away – 24 hours a day.

And since there's no waiting, there's less downtime. We'll even help keep up your inventory with our recommended stocking lists, so you're prepared for each season. Because as much as we'd like to see you at the parts counter, we'd rather see you in the field.

That's the John Deere difference.

JOHN DEERE

www.JohnDeere.com/AgParts

Cleaners, Chemicals and Protectants

John Deere understands what it takes to have a successful operation – in the field and in the shop. That's why we offer powerful cleaners and reliable lubricants. Two of our most popular products, John Deere Classic Glass Cleaner and All-Purpose Cleaner, can do wonders in the shop and in your cab. Make sure you give them a try!

NUMBER	DESCRIPTION	NOW
TY26350	Chain and cable lubricant, aerosol	$ 4.87
TY24811	Never-Seez, brush top	$12.52

TY25684	Classic Glass Cleaner	$ 3.39
John Deere Hand Cleaner:		
TY26066	General Purpose Hand Cleaner with ultra-fine Pumice, 16 oz.	$ 3.88
TY26067	General Purpose Hand Cleaner with ultra-fine Pumice, 1 gal.	$15.96

Classic Glass Cleaner

Our aggressive streak-free formula tackles tough jobs. With extra-powerful foaming action, it stays where you spray it! No running or streaking.

NUMBER	DESCRIPTION	NOW
TY25684	Classic Glass Cleaner	$3.39

Multi-Purpose Spray Lubricant

Use this superior lubricant in hundreds of applications. It's a water-displacing, friction-reducing, light-penetrating oil. It prevents rust and also works well to free up parts already seized by rust, scale or corrosion. Will not harm electrical contacts, wood, vinyl or paint.

NUMBER	DESCRIPTION	NOW
TY6350	Multi-Purpose Spray Lubricant, aerosol	$6.75

Carpet Stain Remover

This remarkable stain remover makes hundreds of tough stains disappear! It quickly and easily removes hard-to-get-out stains tracked deep into your carpet. Plus, it works wonders on other fabrics too – like the interior of your tractor or vehicle!

NUMBER	DESCRIPTION	NOW
TY16403	Carpet Stain Remover	$6.49

John Deere Tire Sealant

John Deere Tire Sealant is a proven preventative maintenance tool. Protect your tires against air loss and save money from reduced downtime for the life of your tires.

Other benefits include:

- Puncture sealing up to 1/4 inch in diameter
- Rim and bead sealing
- Dry rot and cracking prevention

NUMBER	DESCRIPTION	NOW
TY26370	Tire Sealant, 16 oz.	$ 8.19

Loctite® Freeze & Release

Loctite® Freeze and Release saves time, money and frustration. Eliminate the need for cutting torches and die grinders. Freeze and Release instantly freezes seized and rusted parts (bolts, nuts and studs) down to -45°F. Microscopic hairline cracks form in the rust layer as the metal contracts. These cracks allow the product's lubricating oil to penetrate by capillary action quickly and efficiently into the rust layer. After one to two minutes, the assembly is easy to dismantle.

NUMBER	NOW
PM996456	$14.29

Plus-50™ II is your best choice for engine oil. We can prove it.

Since your John Deere equipment deserves top-quality protection, we've designed our Plus-50 II engine oil to protect our engines better than any oil out there.

Plus-50 II trumped competitors when tested in tough off-road conditions,* and it's the only oil we recommend to protect your John Deere equipment up to 500 hours under severe temperatures. And Plus-50 II is formulated specially to inhibit engine wear no matter what brand of equipment or vehicle you're operating. You'll save on service costs and gain productivity.

*Rating applies when complete system flush is performed prior to use.

Fuel Conditioner

Don't let problematic fuel cause damage or downtime. Fuel-Protect Conditioners help you keep going all season by preventing fuel system erosion caused by contaminated fuel. With Fuel-Protect, you'll notice smoother starting, improved water tolerance and less exhaust smoke.

Summer and Winter Fuel Conditioner provides:

- Boosted Cetane Number for faster, smoother, fuel efficient starting
- Detergents and dispersants keep injectors clean
- Lubricity Improver for added protection and reduced fuel injection and pump wear
- Moisture Control improves water tolerance and helps minimize microbial growth

Winter Conditioner Adds:

- Lowers Cold Filter Plugging Point and pour point, improving cold weather fuel flow

Get Ready for Final Tier 4 with John Deere Diesel Exhaust Fluid

John Deere Diesel Exhaust Fluid (DEF) is the newest addition to the service fluid lineup from John Deere – joining top-quality Plus-50 II engine oil, Hy-Gard hydraulic/transmission oil and Cool-Gard II coolant. DEF is used in a selective catalytic reduction (SCR) system to remove nitrogen oxides (NOx) from engine exhaust. Available in a variety of sizes, DEF is the easy and convenient solution for the SCR-equipped engines and vehicles.

With John Deere Diesel Exhaust Fluid, you can be confident you're getting a high-quality product that will provide unsurpassed performance while protecting your equipment investment. Simplify your operation by making John Deere your one source for quality fluid. Integrate John Deere Diesel Exhaust Fluid into your maintenance fluid routine today.

Typical Usage Rates*

JOHN DEERE ENGINE	GAL/HR (LTR/HR)
6.8 L	0.1 (0.4)
9.0 L	0.2 (0.8)
13.5 L	0.3 (1.1)

*DEF usage rates shown are based on an average for typical engine duty cycles. DEF consumption is primarily a function of engine speed and load. Actual results may vary.

Container Sizes

PART NUMBER	DESCRIPTION	SIZE
SWDEF025	John Deere Diesel Exhaust Fluid	9.46 L (2.5 gal)
SWDEF055	John Deere Diesel Exhaust Fluid	208 L (55 gal)
SWDEF275	John Deere Diesel Exhaust Fluid	1041 L (275 gal)
SWDEF330	John Deere Diesel Exhaust Fluid	1249 L (330 gal)

DEF (Diesel Exhaust Fluid) is used to control diesel engine discharges in order to meet EPA emission standards. The purity of the Urea DEF is critical for the SCR process to work.

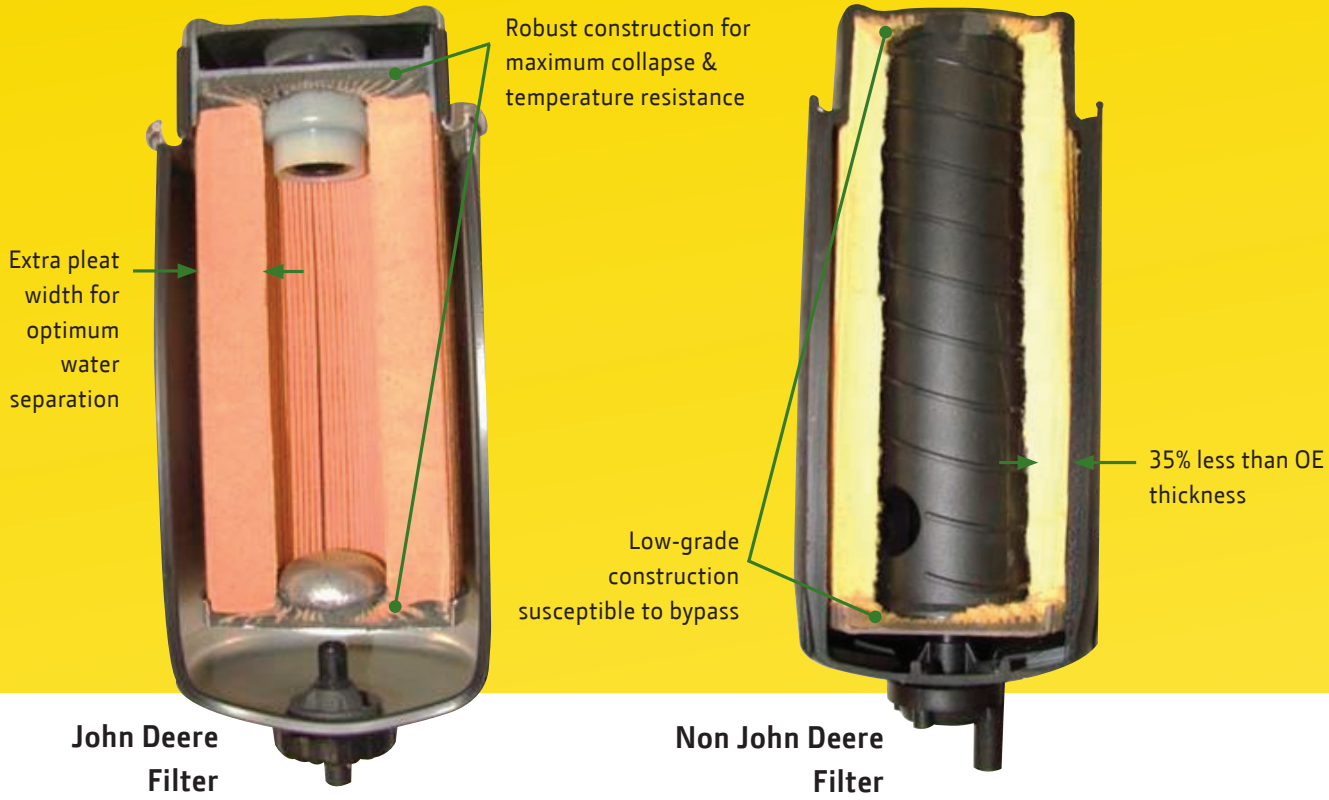
It's What's on the Inside That Counts!

John Deere fuel filters are vital to the health of your equipment.

Top-quality filters are a must-have to protect today's modern, high-precision engine fuel injection systems. Genuine John Deere fuel filters protect your advanced engine by taking care of your engine's worst enemy – water. John Deere filters don't just trap water, they repel it. Their coated filtration media keeps water out, preventing rust and microbial growth that could damage your fuel and lead to poor fuel economy.

John Deere filters are also are vital for taking out rust particles, dirt, algae growth and moisture that can reside in fuel tanks. Without John Deere fuel filters, contaminants could cause rapid wear and failure of the fuel pump and injectors.

See for yourself why Genuine John Deere filters are superior. Trust only John Deere filters to handle the conditions you face.



Robust construction for maximum collapse & temperature resistance
Extra pleat width for optimum water separation
35% less than OE thickness
Low-grade construction susceptible to bypass

John Deere Fuel Filters

When it comes to your fuel, water is the number one enemy. That's why John Deere fuel filters are not only designed to trap water, they're designed to repel it. Our filters have coated media that keeps water out, preventing rust and microbial growth that could damage your fuel and lead to poor fuel economy.

Benefits of John Deere fuel filters:

- Tight pleats and even media spacing - ensures high capacity to catch water and dust particles before they damage your fuel
- Coated media - repels water and prevents it from soaking through to fuel like uncoated media can
- Tight seal between media and filter casing - ensures unfiltered, dirty fuel won't reach engine

NUMBER	DESCRIPTION	APPLICATION	NOW
Fuel Filters*			
AR50041	Fuel Filter	20, 30, and 40 Series Row Crop Tractors	$ 12.71

Putting a corn head **on a coupe?***

Yeah, right. You know that little thing can't handle the field. And guess what? Neither can its parts.

Auto parts are built for trips through the drive-thru. John Deere parts are built to drive through wet, heavy crops while hauling 400 bushels at a time. Not the same at all.

Keep the car on the road where it belongs. Go with the parts built for the work you depend on. **Genuine John Deere parts.**

JOHN DEERE
